
End-of-life notice for Eaton 9170+ power modules

Effective April 1, 2022

Eaton is informing current users of the [Eaton 9170+ UPS](#) that the following power and charger modules will be going discontinued on April 1, 2022. We encourage those with installed systems nearing end of service life be transitioned to the [Eaton 9PXM UPS](#) replacement product. Eaton will continue to support the 9170+ with those parts and components that are still available. 9170+ battery packs (ASY-0529) will remain active at this time.

Part numbers impacted:

- ASY-0673
- ASY-0674
- ASY-0675

Please contact the support teams listed below if you have questions.
